

KleanLoop

Risk Factors

Whitepaper v1.0

RISKS

The purchase of KleanCoin carries with it risk. Prior to purchasing KleanCoin, the purchaser should carefully consider the risks listed below and, to the extent necessary, consult a lawyer, accountant, and/or tax professional prior to determining whether to purchase KleanCoin.

- a. KleanCoin will be stored in a wallet, which can only be accessed with a password selected by the purchaser. If a purchaser of KleanCoin does not maintain an accurate record of their password, this may lead to the loss of their tokens. If your password protection is weak and it is cracked or learned by somebody else, this may also lead to the loss of tokens. As a result, purchasers must safely store their password in one or more backup locations that are well separated from the primary location.
- b. The purchaser recognizes that some of the services in KleanCoin's ecosystem are currently under development and may undergo significant changes before release and/or made available for use. The purchaser acknowledges that any of its expectations regarding the form and functionality of the KleanCoin Exchange Platform and associated services may not be met for any number of reasons.
- c. The purchaser understands that while KleanCoin will make best efforts to connect the KleanCoin Exchange Platform to most major cryptocurrency exchanges, it is possible that some exchanges may decline the connection, which may result in somewhat less liquidity provided through the KleanCoin Exchange Platform than expected in this whitepaper.
- d. The purchaser understands that while KleanCoin will make best efforts to release the KleanCoin Exchange Platform on time, it is possible that delays to the official release may occur.
- e. As with other cryptocurrencies and cryptographic tokens, value of KleanCoin may fluctuate significantly and become reduced in value (including to zero value) for any number of reasons, including but not limited to, supply and demand, overall market conditions, political or geographical reasons, changes of regulations in any jurisdictions, and technical reasons.
- f. KleanCoin will be issued on the Ethereum blockchain. As such, any malfunction or unexpected functioning of the Ethereum protocol may impact the purchaser's ability to transfer or securely hold KleanCoin. Such impact could adversely affect the value.
